

YOUR BUSINESS. OUR BACKYARD.

Why spend time and money racking and powering servers you won't fill up until the moment they need to be replaced? Let JelecOS do the heavy lifting for you: We'll provision, manage, license, patch and power up your compute stack in our state-of-the-art Compliance-Ready Environment, and you only pay for what you use. data storage is created equal. JelecOS is here to help you understand your real operational storage needs and to build a solution specific to your environment: Need screaming-fast IOPS to support VDI, Databases or Big Data applications? We've got you covered. Just filing away some dusty old data to meet retention rules? We'll help you de-clutter. And with Quality of Service guarantees and Service Level Agreements backing every byte, you can rest assured that your storage will always meet your performance needs.

Our Compliance-Ready Environment takes the guesswork out of building secure Virtual Machines

We manage the complete computing stack – Web, Application and Database – so you can get back to the work you do best

Fully-managed load-balancers, firewalls and patch management means you won't have to worry about the day-to-day work of managing your own computing platform

A robust Infrastructure is the foundation of any new technology. Servers, network devices, workstations, mobile devices, communications and data storage make up the core business infrastructure you need to power innovation and grow your revenue. If your foundation isn't rock-solid, there's no need to spend time building a long-term strategy. Are you getting what you need from your IT infrastructure? Talk to JelecOS about how computing Infrastructure delivered as a monthly service can save you time and money while refreshing your technology without a costly capital expense.

YOUR BUILT TO ORDER

At JelecOS, we take the time to understand your business needs and build an Infrastructure that can support you today, tomorrow and long into the future. Scalable, secure and reliable Infrastructure built to order: That's how you save time, money and manpower with JelecOS.
